Fire Safety October is Fire Prevention Month and Fire Prevention Week is October 6- 24. Fire Prevention Week is held the week of the anniversary of the Great Chicago Fire. It's one of the longest running public health observances, dating back to 1922. What should you do?

-Check your fire extinguishers. Make sure they are ready to use

-Now is a good time to check your chimney. Make sure it is clean and ready for winter

-Double check your heater vents. If they are blocked there is a high risk of carbon monoxide poisoning

-If you use space heaters, be sure to keep anything flammable well away from them. Keep children and pets away from them. Be sure to turn them off when not in use.

The above tips should reduce your chances of a home fire. Stay warm this winter, but also stay safe.
